This association was founded for all Australian centrefire shooting enthusiasts. It will organise, manage and administer the running and promotion of its matches and events for repeating centrefire positional rifle shooting sports and sportsman with structure and credibility for all licensed shooters to enjoy.

Please note: Becoming a member of the AIHPA does not offer a "genuine reason" to retain firearms under some state laws. We simply offer an international administrative extension to any shooters current activities. All members must be a current member of a recognised "peak body" (eg. SSAA) for licence compliance & insurance purposes.
